

## Spotfire 12 Webinar Series

Hi Brian,

Summer break is over, you're back at work, and that to-do list looks long. What you need is something fun and fast that will still help you reach your toughest goals.

This binge-worthy video webinar series on Spotfire 12 satisfies. No dragons, but you will discover all the fantastic new capabilities in Spotfire 12 software: Cloud Actions, ModelOps integration, new Spotfire Mods, and much more. Stream from anywhere. Add individual episodes to your queue or binge watch in one viewing.

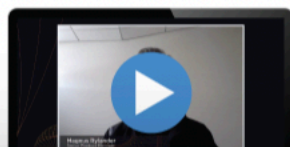

Get set, go. The ACTIONS webinar shows you how to use Cloud Actions to automate activities across multiple platforms—without ever leaving the Spotfire application.

**CLICK TO WATCH**

Start building. The ModelOps webinar shows how you can create data science models and scoring pipelines, all inside Spotfire analytics. Nobody else has this.
